

[18/11/2015]

Meeting Minutes

Attending

Mateusz Maly, Jan Gucwa, Filip Borowiak, Karol Baran, Dawid Janelli

Announcements

Server can receive strings with information on the origin and destination locations and send out distance between them.

Jan has started working on the pricing system.

App UI allows user to input

Discussion

More functionality added to the server and discussed in the group meeting. Jan has also started working on the pricing system.

Outcomes

The plan is to have the server return some basic information such as origin, destination, price, distance and duration of the chosen journey before the half term ends. The Website is still behind but some progress has been made when it comes to connecting it to the server.

Tasks

Mateusz – App UI

Jan – API implementation on the server

Karol – Website UI

Filip – Connecting the website to the server

Dawid – Connecting the website to the server
