Meeting Minutes

Attending

Mateusz Maly, Jan Gucwa, Filip Borowiak, Karol Baran, Dawid Janelli

Announcements

Date and Time implemented into the search engine on the server.
App UI redesigned, colours changed to match the website design.

Discussion

Discussion was based around the deadlines for the project, finishing all the documents, the user guide and the testing.

Outcomes

Everyone agreed to commence with some more unit testing and to implement as much as possible in the next couple of weeks so we have at least a week of testing before the deadline for the project.

Tasks

Mateusz – Technical Report, approving documents, app UI
Jan – unit testing, improving price system.
Karol – Fixing resolution on all devices for the website.
Filip – adjusting displaying of the results.
Dawid – Sorting documentation
