Announcements

Server is able to parse origin and destination locations and return price, distance and duration for the given journey.

The app is able to display the results in a basic format.

Discussion

Discussed the progress on the server which has all the basic functionality except for the dates. Next phases are to implement dates and return error messages when something goes wrong.

Outcomes

The website is still not connected to the server. We have agreed that it will be connected before the next term begins.

Tasks

Mateusz – App UI
Jan – Error handling on server side
Karol – Website UI
Filip – Connecting the website to the server
Dawid – Connecting the website to the server
